Professional Summary

Aspiring Java Backend Developer with hands-on experience in developing database-driven web applications using Java, JDBC, Spring Boot, Servlets, JSP, and MySQL. Strong understanding of MVC architecture, authentication systems, session management, REST concepts, and structured CRUD operations. Experienced in building modular backend systems and integrating frontend interfaces using React. Certified in NPTEL Java Programming and Oracle Data Science and Generative AI. Strong foundation in Data Structures, Object-Oriented Programming, and DBMS.

Technical Skills

Programming: Java, JavaScript, TypeScript, SQL

Backend: JDBC, Spring Boot, Servlets, JSP

Frontend: HTML, CSS, React

Database: MySQL

Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems

Tools: Git, GitHub, Eclipse, VS Code

Projects

Smart Education System

Java, JDBC, React, MySQL

Built an academic management system for student record management and performance tracking. Implemented backend logic using Java and JDBC with MySQL for database connectivity and CRUD operations. Designed modular architecture separating presentation, business logic, and data layers. Integrated React frontend with backend services.

Smart Hostel Management System

Java, JDBC, Servlets, JSP, MySQL

Developed a hostel management web application with modules for student registration, authentication, room allocation, food feedback, and complaint management. Implemented session-based authentication, Request-Dispatcher workflow control, and database operations using JDBC. Followed MVC architecture principles for structured backend development.

Education

Bachelor of Technology in Information Technology

Sagar Institute of Research and Technology

CGPA: 7.22

3rd Semester SGPA: 7.38

4th Semester SGPA: 7.04

Currently in 6th Semester

Class XII (Science) – 71.8% (2022–2023)

Class X – 71% (2020–2021)

Certifications

NPTEL – Java Programming

Oracle – Data Science Certification

Oracle – Generative AI Professional
